Technical Skills

Languages: Java,JavaScript, HTML/CSS
Libraries/Frameworks: Nodejs, ExpressJS, ReactJS, Nextjs
Databases: MongoDB, SQL, PostgreSQL,Firebase
Technologies: Figma, Git

Experience

Flib | Full Stack Developer Intern   June 2024 - July 2024

- Developed a high-performance web application using Next.js 14 and TypeScript, achieving a **40% reduction** in page load times through advanced **SEO and lazy loading techniques.**
- Implemented **responsive UI architecture** with Tailwind CSS , driving a **25% increase** in user engagement.
- Ensured web applications were fully responsive and accessible on all devices, improving mobile user experience

SPYNE | SDE Intern   March 2025 - present

- Designed and tested backend REST APIs, ensuring smooth integration with databases and validating business logic with edge case coverage.
- Built and verified UI features using Next.js and Tailwind CSS, testing interactive elements for functionality, responsiveness, and usability.
- Integrated backend APIs with frontend for seamless user experience.

Projects

Store It | React.js, Next.js, PostgreSQL, TailwindCss, Appwrite   Link | Code

- Implement signup, login, and logout functionality using Appwrite's authentication system.
- Effortlessly upload a variety of file types, including documents, images, videos, and audio, ensuring all your important data.Users can browse through their uploaded files stored in Appwrite storage, view on a new tab, rename file or delete.
- Gain insights at a glance with a dynamic dashboard that showcases total and consumed storage, recent uploads, and a summary of files grouped by type.

Live Docs |Next.js, Express, Mongo DB,ShadCn,Tailwind Css   Link | Code

- Authentication & Collaboration – Secure GitHub authentication with NextAuth and real-time collaborative text editing.
- Document Management – Create, delete, share, and list documents with permissions, search, and sorting.
- Enhancements & UX – Inline comments, active collaborator indicators, notifications, and full responsiveness.

Social App |React.js, PostgreSQL, Tailwind Css, Auth.js, React Query   Link | Code

- Seamless Social Experience – Secure authentication, an engaging Explore page, and interactive features like likes, saves, and detailed post pages.
- User-Centric Features – Create, edit, and manage posts effortlessly with drag-and-drop, profile customization, and smooth navigation via a responsive UI.
- Performance & Scalability – React Query for optimized data fetching, Appwrite for a powerful backend, and a modular, reusable code architecture.

Education

BachelorofTechnology (B.Tech) in CSE   09/2021 - 06/2025
The NorthCap University, Gurugram

- **RelevantCoursework:DataStructures, Analysis and Design of Algorithms, DBMS, AI/ML, Operating Systems, Microservices**
